 Me-Nandhakumar |  Nandhakumar |  nandhakumar.s.jnandhu@gmail.com |  +917010597980

SUMMARY

I am an AI and Data Science student with hands-on experience in Python programming, SQL, data analysis, and visualization. Skilled with core libraries like Pandas, NumPy, and Matplotlib. Strong communication skills and a practical approach to delivering reliable results. Known for building real-world projects that combine automation, data-driven logic, and clean design

SKILLS

Technical Skills	Python, SQL, Data Science, HTML, CSS
Soft Skills	Good technical communication, Time management
Libraries	Pandas, NumPy, Matplotlib
Tools/Technology	PyCharm, VS Code, MySQL Workbench, Jupyter Notebook, Github

PROJECTS

CareHub – Smart Hospital Management & Billing System

[GitHub Link](#)

Developed a Python-based hospital management system with MySQL integration for patient records, appointment slot booking, automated billing with QR code payments, and WhatsApp bill delivery using PyWhatKit..

Customer Care Support Chatbot

[GitHub Link](#)

You created a website chatbot using Python (Flask) and HTML/CSS. It helps customers by giving quick automatic answers to common questions. The chat screen is simple to use, works instantly, and you can also add AI for smarter replies.

EDUCATION

2022 – 2026	Bachelor of Technology in Artificial Intelligence and Data Science Mahendra College of Engineering, Salem - (CGPA: 7.1)
2021	Class 12th, Saraswathi Matric Higher Secondary School - (76.6%)
2020	Class 10th, Saraswathi Matric Higher Secondary School - (73.4%)

INTERNSHIPS & TRAINING

Aug 2024 – Sep 2024	Full Stack Intern – Crescent Infotech Worked on front-end and back-end development basics using HTML, CSS, Python. Gained hands-on experience with web app deployment and code optimization.
Aug 2025 – Present	Machine Learning and Python Training – Livewire Institute Hands-on experience in Python programming and data science applications.

CERTIFICATES

Aug 2025	Freedom with AI – Masterclass Completion
Feb 2024	International Level Student Workshop 2k24 – Data Science using Python
